EduLinked

Accessible Communication & Resources

Communication That Works for You.

Clear information. More communication choices. Resources shaped around individual needs.

EduLinked's accessibility-first communication and resource services help create more inclusive environments where everyone can connect, participate and belong.

Communication & AAC Supports

Explore augmentative and alternative communication tools and practical communication strategies.

Easy Read Document Creation

Turn complex information into clearer, more accessible documents using plain language and appropriate visual supports.

Easy Read & Communication Training

Help teams build practical skills in accessible writing, communication and resource development.

Personalised Accessible Resources

Develop resources suited to a person's goals, interests, communication preferences and everyday activities.

Who We Support

- Individuals
- Families
- Educators
- Disability support professionals
- Organisations
- Community programs

From your idea to a usable resource

EduLinked

A simple and supportive process

Our customer journey

1. Tell us about your communication or information needs.
2. Choose the service or resource you need.
3. Discuss accessibility, consent and project scope.
4. Agree on the quote or support arrangements.
5. Receive your resource, training or supported practice.
6. Review the result and request further support.

Easy Read

- Information should be easy to understand.
- We can help make information clearer.
- We can create resources with you.
- You can tell us what works best.

Frequently asked questions

- What document formats can you provide?
- Do you support AAC?
- Can resources be customised?
- Do you offer training?
- Can I request revisions?

Example: A clearer information resource
