

EMLS Product Pack

EduLinked Modular Learning System - curriculum-first, accessible learning at scale

EduLinked Pty Ltd | Contact: founder@edulinked.com.au

Source page: www.edulinked.com.au/projects/emls/

This document is written in plain language and is intended for institutional enquiry, pilot planning and accessible procurement conversations.

1. Product summary

EMLS is a flexible, curriculum-first platform for institutions. It packages modular lessons, accessible media and simple facilitation tools so teams can deliver verified, inclusive learning with less overhead.

Institutions can choose single-module pilots, staged deployments or broader licensing conversations. EMLS is designed to support accessible learning delivery, facilitator preparation, assessment evidence and reporting.

Item	Details
Product status	Flagship institutional learning product.
Designed for	schools, libraries, education departments, training organisations, museums, cultural institutions and public learning centres.
Core offer	Modular curriculum, built-in accessibility, facilitation workflows, verification outputs, licensing and deployment support.
Best first step	Request a demo or discuss a single-module pilot.

2. What EMLS includes

- **Modular curriculum:** mix-and-match teaching sequences, classroom variants and assessment rubrics.
- **Built-in accessibility:** Easy Read templates, captioned media, Auslan-ready summaries and symbol-supported resources.

- **Facilitation tools:** quick start guides, delivery checklists and support for teachers, librarians and program staff.
- **Verification and reporting:** evidence outputs that support assessment, governance and funder reporting.
- **Licensing and deployment support:** options for pilots, institutional rollouts, training cohorts and partner support packages.

3. Why institutions use EMLS

- Scale inclusive learning consistently across sites.
- Reduce preparation time for facilitators.
- Use accessible variants as part of normal delivery, not as an afterthought.
- Support audit, evaluation and reporting through clearer evidence collection.
- Start small with a pilot before considering broader licensing or rollout.

4. Example deployment pathway

Item	Details
Month 0	Onboarding, partner scoping, module selection and accessibility planning.
Months 1-2	Configure selected modules and train facilitators.
Months 3-4	Pilot delivery, evidence collection and monitoring.
Months 5-6	Evaluate, iterate and decide whether to scale or license.

5. Enquiry and next steps

To discuss EMLS, request a demo, or explore a pilot conversation, contact EduLinked.
